A new organisation will fall victim to ransomware every 14 seconds in 2019 and every 11 seconds by 2021. Phishing sites and ransomware attacks are increasing at an alarming rate with 34% of businesses who have been hit with a malware attack have on average taken a week or more to regain access to their data.

Here at Onsite UK Limited we can evaluate your current IT security threat and provide a bespoke solution to prevent cyber-attacks against your business. Speak to a member of our IT security team for further information.
